NEWS

New features and data added to the CFDE Search Portal

New Features
- Personal collections can be created and exported. Users can create collections of data they are interested in and search within a collection.
- New icons on the homepage allow users to start a search by disease, gene, or compound.
- Users can now search for new types of data: time series, proteins, compounds, and substances.

Data from Common Fund Programs
- 4D Nucleome Data Coordination and Integration Center
- Extracellular RNA Communication
- The Gabriella Miller Kids First Pediatric Research Program
- Genotype-Tissue Expression
- Glycosciences
- The Human BioMolecular Atlas Program
- The Human Microbiome Project
- Illuminating the Druggable Genome
- Library of Integrated Network-based Cellular Signatures
- Stimulating Peripheral Activity to Relieve Conditions
- University of California San Diego Metabolomics Workbench

EVENTS

Cross-Pollination Meeting

Tuesday May 3
2 pm ET / 11 am PT

May Hackathon

Monday May 9 - Friday May 13
12 pm ET / 9 am PT

Sessions include:
- May 9: Intro to Common Fund Data
- May 9: CFDE Search Portal Demo
- May 10: iHMP Data Exploration ()
- May 10: Using APIs to Access KidsFirst Data (May 10)
- May 11: Intro to R for RNA-Seq Analysis with GTEx Data
- May 11: Exploring SPARC data on organ to nervous system connectivity
- May 12: Social Co-Working

Cross-Pollination Meeting

Tuesday June 7
2 pm ET / 11 am PT

All Hands Meeting

Thursday June 9 - Friday June 10
Bethesda, Maryland
